

Students' comments about ACCA Teachers

Abeel Ahemad

He is very supportive, hardworking and committed teacher. Classes are held always on time. He focus on theory and numerical both. Course oriented. Motivate the students. Teach with his full efforts. Exam focused.

Luqman Rafiq

Greatest strength in my view would be his attitude towards student. He always tries to take all the class with him and does not favour any particular student. He always ready to answer problems and last strength would be Free Refreshments provided by him because of which this boring subject becomes pretty interesting and also because of all the fun and laughs made by him in the class helps the student to be attentive. His weakness would be his idea of revision of f9 paper for 1.5 months.

Ahmed Shafi

He is the best man available for F5 and F9. Believe me on this one.

Shakeel Baig

NO COVERAGE TO THE WHOLE SYLLABUS IN REPORTING ALWAYS JUST FOCUSED ON CONSOLIDATION WHEREAS THERE IS ALSO A LOT OF OTHER SYLLABUS THERE.

Sir Sajid kapadia

Prefect story teller, ask any question and he will give beautiful explanation by example which embedded in student mind. His attitude is very helping in studies and also in every aspect of life, just as the question and you will be satisfied in professional and confidential way.

Intizar Hussain

No teaching in depth, just a mild glance on IFRSs. Focuses on just practice but concepts are also matters a lot. He doesn't gives detailed concept of IFRSs.

Miss Sadaf Maz

The compatibility with every student is excellent.

Hamid Raza

His grip on the subject is very strong and can clear your concepts very easily. His methodology is creamy but he is

little bit lazy. He can't focus much on practice, especially in standards section of reporting papers but one can sort it out, as main thing is CONCEPT, and he is a GURU in this aspect.

Zeeshan Sattar Malik

He is really good and friendly teacher. But as he is principle as well so sometime its hard to get time from him outside the class because of his friendly nature every student wants to discuss his problem with him e.g. about fee or etc.
